

## Health and safety policy

In the production of food and drinks, their presentation and accommodation services as part of our corporate activities;

The laws and regulations of the Turkish Republic will be seen as a minimum standard,

All activities which could be a source of danger, could lead to accidents or occupational diseases are to be prevented,

Risk management,

all of our employees, guests and partners a safe and healthy environment for all activities should be guaranteed,

this are constantly carried out further developments to enhance the awareness and knowledge.

A continuous development of health and safety management system and its monitoring.

All institutions and staff have this as a permanent task.
